

USA PHONECENTERS NO FEE CONSULTING AGREEMENT

Company Name _____
Contact / Phone _____

This agreement is intended to provide the Company above a professional analysis of their current existing voice and data service costs versus a carrier(s) that USA PhoneCenters' recommends as a price and service alternative. In addition, based on your existing records and billing you will receive a full inventory of services at all applicable locations.

Our Standard Fee is \$350.00 per site location. Large account billing is on a IBC. (Individual Case Basis) The fee is based on the amount of hours for research time, reviewing customer service records, contacting any and all applicable vendors, number of locations and documenting these findings in a simple, descriptive format.

Note: This agreement is contingent upon USA Phonecenters delivering a total savings potential in excess of 20% of your existing cost expenditures. There is NO COST or CHARGE to your company unless we can document this savings potential.

FEE WAIVER: The FEE is waived if your company signs an agreement allowing NCN (a USA PhoneCenter Company) to convert your services within (45) days of the signing of this Consulting Agreement.
